Captain JOHN S. MOSBY has for a long time attracted the attention of his Generals by his boldness, skill and success, so signally displayed in his numerous forays upon the invaders of his native State.

None know his daring enterprise and dashing heroism, better than those foul invaders, though strangers themselves to such noble traits.

His late brilliant exploit—the capture of Brig. Gen. STOUGHTON, U. S. A., two Captains, thirty other prisoners, together with their arms, equipments and fifty-eight horses—justifies this recognition in *General Orders*.

This feat, unparalleled in the war, was performed in the midst of the enemy's troops, at Fairfax C. H., without loss or injury.

The gallant band of Capt. MOSBY share the glory, as they did the danger of this enterprise, and are worthy of such a leader.

J. E. B. STUART,

One and a half years into the Civil War, John Singleton Mosby was given a small group of rangers from his former commander, General JEB Stuart to conduct independent partisan operations into Northern Virginia. These rangers would eventually become the Forty-third Battalion, Virginia Cavalry and would grow from nine to over 2,000 men.

Mosby's mission was to attack and harass as many Union outposts, camps, and supply points he could find operating in Northern Virginia. By successfully raiding behind enemy lines Mosby would keep large numbers of Union soldiers guarding the city of Washington, thus denying federal forces in the field from fighting against General Robert E. Lee and the Confederate army. Mosby is considered by military historians as the most successful leader of such partisan guerilla activities.

This book is your tour guide to over 160 locations in Fauquier County where Colonel John Singleton Mosby conducted some of his most famous raids during the Civil War, as well as other notable Civil War sites. It is also a guide to the locations of the historical markers dedicated to those raids, the safe houses used by Mosby and his men, and the locations of the graves of Mosby's Rangers who are buried in Fauquier County. It includes a map and the history associated with each raid, his men, and all the locations in the county associated with the "Grey Ghost," Colonel John S. Mosby.
